14-point US-Iran Agreement (MOU).

Jun 17, 2026.

Senior US officials just read the 14-point US-Iran agreement *word-for-word* to us during a background call. What's in the MOU (a summary):

- 1) “Immediate and permanent termination of military operations on all fronts, including in Lebanon,” and undertake not to initiate war, threaten or use force against each other.
- 2) Respect each other’s “sovereignty and territorial integrity” and no internal interference.
- 3) Negotiate final deal in “maximum 60 days”, extendable with mutual consent.
- 4) U.S. begins removing naval blockade immediately, fully ends in 30 days. US forces return to pre-conflict posture.
- 5) Iran to ensure "the safe passage of commercial vessels with no charge for 60 days,” And traffic starts immediately; Iran clears mines/obstacles within 30 days.
- 6) U.S. “undertakes with regional partners to develop a definitive, mutually agreed plan with at least \$300 billion for the reconstruction and economic development” of Iran.

Licenses/waivers to be granted. Mechanism finalized in final deal.

(Official notes: Heavy on partners and private sector — does not require direct U.S. taxpayer funding.)

- 7) U.S. to “terminate all types of sanctions” (UNSC, IAEA, unilateral primary and secondary) per agreed schedule in final deal.

- 8) Iran “shall not procure or develop nuclear weapons.” Resolve “stockpiled, enriched material” with minimum “down-blending on site under the supervision of the IAEA.”

Further talks on enrichment and nuclear needs in final deal.

(Official notes: Nuclear issues are in the deal, unlike what the Iranian media suggested. Sanctions relief (7) “tied to the nuclear settlement in 8.”)

- 9) “Maintain the status quo.”

Iran keeps current nuclear program status.

U.S. imposes no new sanctions and deploys no additional forces.

- 10) Immediately upon signing, U.S. Treasury issues waivers for export of Iranian crude oil.

(Official notes: this ends the era of China buying at massive discount.)

- 11) U.S. to “make fully available for use the frozen or restricted funds and assets” of Iran upon implementation of this MOU.

(Official notes: Not fully upfront — implementation and monitoring required.)

- 12) “An executive mechanism will be established to monitor the successful implementation of this M.O.U. and the future compliance of the final deal.”
- 13, 14) Negotiations on final deal begin after implementation of Paras 1,4,5,10,11. “The final deal will be endorsed by a binding U.N.S.C. resolution.”

Official warns: *"If we think that they're [Iran] just dragging us along and kind of B-S-sing us, and we'll be very quick to pull the plug on it and go back to tightening the screws on them very, very aggressively."*
